Statement of Vision, Mission and Values

VISION:

Survivors' Network's vision is of a world without sexual violence.

MISSION:

Our mission is to support and empower survivors of sexual violence and to work towards ending sexual violence in society.

VALUES:

At Survivors' Network, we view people accessing our services as survivors, rather than victims. This does not ignore an individual's experience of victimhood, but rather defines the basis upon which we begin all interactions with service users.

Activist: We will raise awareness of sexual violence, educate, challenge abuse, change behaviour and attitudes.

Connecting: We make connections at many different levels; with and between survivors, supporters, organisations and partnerships.

Survivor Centred: We are committed to survivors being involved at every level of our organisation and the service we provide. Survivors' Network strives to create an accepting, listening, safe, non-judgemental environment which seeks to validate and understand the survivors' experiences.

Feminist: We live in a patriarchal society and believe that sexual violence should be challenged from a feminist perspective. Because sexual violence is a gendered crime, we are a women-led organisation committed to offering women-only spaces and services. However, we recognise that sexual violence impacts on people of all genders in unique ways and work to build our services accordingly. We consider a trans inclusive feminism to be key to our values and central to our service. We consider the lack of services and funding for people of all genders to also be a feminist issue and look to build partnerships to address this.

Empowering: We believe that survivors are the expert of their own experience and discovery, and we strive to support them to make their own decisions about their lives. When people are empowered they find creative ways to resolve their own problems and contribute better to wider society.

Committed to Equality: We are committed to improving the accessibility of our services to reach all survivors, especially in relation to their legally protected characteristics (age, disability, ethnicity, gender identity, pregnancy or maternity, marriage/civil partnership status, religion or belief, sex, sexual orientation,). Survivors' Network is committed to identifying, understanding and breaking down barriers to participation and increasing opportunities and access to all our services and/or seeking funding for new services where need is identified.
